- Recluse
- Trivedi's South Asian study site
- Little Pub, Don's Rok and VT, metaphorically
- Heating unit
- Rain or shine preceder
- KJ's Red ____
- Strike caller

ABOUT THE AUTHORS: Jonathan Vaughan is the James L. Ferguson Professor of Psychology, who has taught at 38-across long enough to have personally experienced much of the institution's history. George Barany is a Distinguished McKnight University Professor of Chemistry at the University of Minnesota, whose hobby is the construction of cross-word puzzles for special occasions and to a range of audiences (<http://tinyurl.com/gbpuzzle>). His daughter, Deborah A. Barany '11, completed the neuroscience concentration, during which she analyzed the principles of movement planning with Vaughan and applied them as violinist in the campus orchestra and as Academic All-American on the tennis court. One of the 10-down, she has moved on to the Psychological and Brain Sciences program at the University of California, Santa Barbara. The puzzle may also be solved online, at www.hamilton.edu/magazine/puzzle. **ANSWERS CAN BE FOUND ON PAGE 15.**
